PROFESSIONAL SUMMARY

Senior Software Engineer and Tech Lead with 9+ years of experience designing, building, and scaling high-availability distributed systems in the financial services industry. Strong background in backend and full-stack development using .NET, React, Next.js, and cloud-native architectures on AWS. Proven experience leading engineering squads, driving architectural decisions, implementing event-driven solutions, and delivering mission-critical platforms for fintech and capital markets environments.

CORE SKILLS

- Backend & APIs: C#, .NET Core, ASP.NET Core, REST APIs, Dapper, Entity Framework
- Frontend: React, Next.js, Angular
- Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD
- Architecture: Microservices, Distributed Systems, Event-Driven Architecture
- Databases & Messaging: PostgreSQL, SQL Server, Oracle, MongoDB, RabbitMQ
- Observability: Datadog, OpenSearch

PROFESSIONAL EXPERIENCE

Itaú Unibanco — São Paulo, Brazil

Senior Software Engineer | May 2026 – Present

- Leading the development and modernization of high-availability financial systems focused on scalability and reliability.
- Designing and implementing distributed microservices using .NET, React, Next.js, Docker, Kubernetes, and AWS.
- Driving architectural decisions, engineering standards, and technical strategy across backend and frontend initiatives.

BTG Pactual — São Paulo, Brazil

Senior Software Engineer / Tech Lead | Jan 2023 – May 2026

- Led engineering initiatives for mission-critical financial platforms supporting equity and derivatives operations.
- Architected cloud-native microservices using .NET and AWS for scalable and fault-tolerant financial workflows.
- Designed distributed and event-driven solutions integrating RabbitMQ, relational databases, and AWS services.
- Implemented observability solutions using Datadog and OpenSearch, improving operational visibility.

- Acted as technical lead for engineering squads, driving architecture decisions and code quality standards.

Sinqia (Evertec) — São Paulo, Brazil

Senior Software Engineer / Tech Lead | Jan 2018 – Jun 2023

- Led a derivatives-focused engineering squad, providing technical leadership and mentoring.
- Developed APIs and backend services using C#, .NET Framework/Core, relational databases, and messaging integrations.
- Contributed to modernization initiatives involving legacy systems migration and architectural improvements.

OTHER RELEVANT EXPERIENCE

- Via Varejo | *Aug 2021 - Jan 2022* — Developed backend integration solutions for high-traffic retail platforms.
- Nestlé Brasil | *Dec 2016 - Feb 2018* — Full-stack web application development using C# MVC, Entity Framework, JavaScript, HTML, and CSS.
- Easylux | *Jan 2015 - May 2016* — Development and maintenance of internal web-based systems.

EDUCATION

Technologist in Technology Management

Faculdade de Tecnologia de Mauá (FATEC Mauá) — 2018

Technical Degree in Electronics

ETEC Júlio de Mesquita — 2014
